Interested in learning the skills to groom your own dog?

See page 20.

👂 I was looking for a cooking course to improve my skills, after teaching myself how to make pizza from scratch. As the 'A Taste of Italy' course was an evening class, I was able to easily fit this in after work. The chef, Jason, was extremely knowledgeable and made the sessions really fun and engaging. Making gnocchi and tiramisu was a real highlight for me!

The course has helped massively with my confidence. I'm now considering trying another Colours Cookery course or even something new and different. It's always daunting doing something on your own, but I found it a really rewarding experience! 👂

*ESOL and WorkWorld  
Digital Skills*

When I first arrived in the UK, I knew I needed to improve my English to settle in better and communicate confidently. I started with an ESOL course to build my language skills and later enrolled on a Digital Skills course to develop my computer abilities and connect with more people. My tutors and classmates were so friendly and supportive, which quickly helped me build more confidence in different situations, including job interviews.

I was offered a position as an Expert by Experience in the Refugee Resettlement Service at St Helens Borough Council, helping refugees to access support and services. My goal is to continue my studies to eventually progress on to university. I am so proud of the progress I have made so far, and I am determined to keep pushing myself to grow and achieve more success.

Access to HE  
Diploma Art  
and Design

“I found a love for sculpting in my mid-thirties and completed a short ceramics course at the College. After reaching the limits of what I could teach myself, I realised I wanted to take my education further. The Access to HE course exceeded all expectations. I learned new art forms and practical skills and by the end of the course, I had a clear set of goals and the confidence to take it further.”

I earned a place at Manchester Metropolitan University, studying BA (Hons) Fine Art and after I graduate, I would love to train to become a Teacher. This course was an amazing, life altering experience. I will be forever grateful to those who taught me.”

*BA (Hons) Fine Art Painting*

The amazing lecturers made me feel included and supported. Once I graduated, I wanted to give back to the community that helped me grow as a creative and I now run my own business.

Benefit from incredible facilities such as painting studios, a game art lab, performance theatre and much more, not to mention inspiring guest speakers and live briefs!

 Sox

“I always enjoyed grooming my dog, Sox, which gave me the idea to look for courses where I could become fully trained and qualified. I loved the practical, hands-on experience I gained during these courses, and the facilities and support from the tutor was great too.”

Completing these courses gave me the knowledge and confidence to start my own business. It was daunting thinking about going back to college in my mid 30s but it was the best decision I have ever made. The only regret I have is not doing it sooner! ”

66 The course was really informative, easy to access and fitted in around a busy family life. I progressed on to a level 3 mental health course, went on to become a Mental Health Support Worker in a hospital and I am now studying for a degree. If it wasn't for this online course, I wouldn't be where I am now. 99

*Level 4 Professional Accountant  
Apprenticeship at Merseyrail*

☺☺ After completing level 2 and 3 AAT qualifications, I chose to study level 4 Accounting through an apprenticeship programme. It was a huge benefit having support from College tutors and workplace mentors, and being able to apply the course material to a real-life setting. I also earned a salary while I was learning!

I have now progressed onto a Chartered Institute of Management Accountants (CIMA) qualification to continue to build my skills. ☺☺

# Are You An Employer?
